# WALL PADS

**CUSTOM AND STOCK COLOR**

**The BEST quality & construction you can buy!**

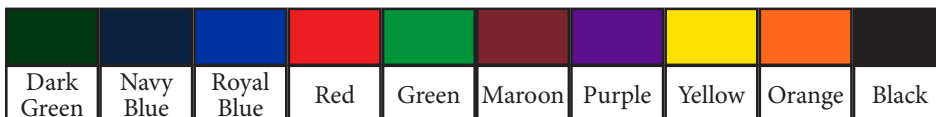

Wall padding can have dynamic colors and graphics that can enhance the setting. Vibrant colors and large-scale graphics can visually stimulate the spectators' view. A powerful and large logo can encompass the center of the wall padding or you can use your school mascot to represent the center of the wall padding.

GameDay's Wall padding can include sponsors advertising, branding opportunities, directional guidance, and conveying safety messages. Our wall pads are custom made for your school! Wall padding can be used for gymnasiums, stadiums, arenas, wrestling rooms, and any area that would need protection.
